Construction Update

March 26, 2025

Illinois Route 7 Channelization Project Enters New Phase!

The contractor has begun curb and pavement removal, as well as roadway excavation in the Stage 1 construction phase, which includes the following:

- South side (odd addresses): Madison St. to 7th St.
- North side (even addresses): 7th St. to the east project limit (Taco Patio).

During work hours, driveway and side street access may be temporarily impacted. The contractor will restore access with temporary aggregate

by the end of each day and will notify you in advance if your access will be affected.

Once removals are complete, curb and driveway installations will be scheduled. You will receive further updates before work begins in front of your home or business.

We appreciate your patience and cooperation as we work through this phase!
