Construction Update

November 8, 2024

Over the past two weeks, the contractor installed and backfilled the concrete box culvert ditch enclosure along IL Route 7. Box culverts allow water to flow under a road, railroad, or trail from one side to another and support improved drainage flow.

Next week, the contractor will be continuing storm sewer installation within the Stage 1 traffic closure.

Be alert for a new traffic pattern.

- From Summit Drive to 7th Street: Motorists will use the eastern lanes
- From 7th Street to Lincoln Street: Motorists will use the western lanes

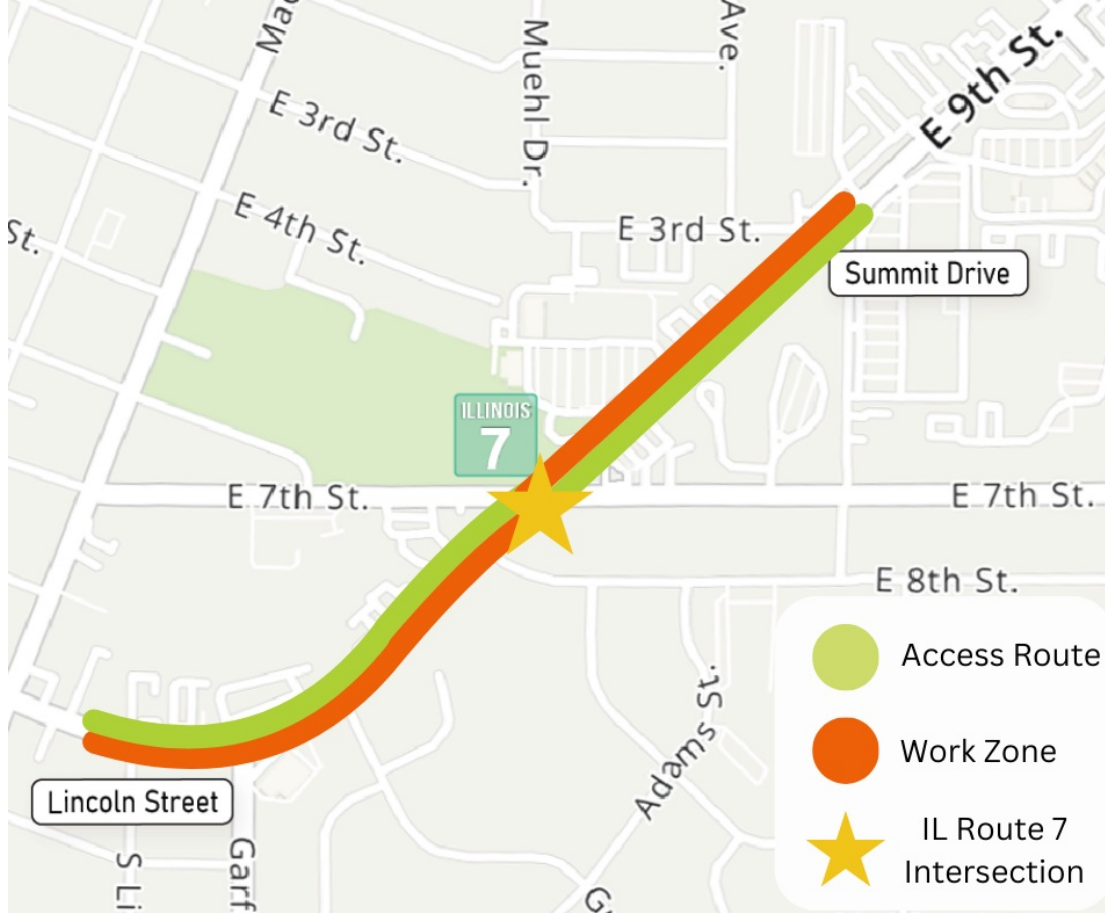

Box culvert installation

Any impacts to traffic or lane closures will be shared daily. Please use caution when traveling through the area.
