## Construction Update

### December 6, 2024

Recently, the contractor poured the concrete foundation for the new lighting controller cabinet.

This week, the contractor will continue miscellaneous storm sewer installations near the ditch enclosure box culvert and east of Dairy Queen. The contractor will also be cleaning up the site in preparation for the winter.

As we approach the winter season, the contractor will complete miscellaneous work throughout the cold months as long as weather allows. **Happy Holidays, Drive Safe!**
